It looks like a poorly self-published book with very poor pictures that don't even look like rugs. I am so angry that I got sucked into wasting my 9 dollars. The book is small and not worth 3 dollars.0 of 0 people found the following review helpful. One StarBy CustomerBarely more than an outdated pamphlet.0 of 0 people found the following review helpful. to book . It is full of beautiful clear pictures of her rugs. There are no close ups of sections so you will not see the individual loops. I use books like this to help see what colors look like together. I tend to color plan my picture and when that's fished I start looking for the perfect back ground color . Even if I color plan the picture I usually end up changing my mind so there is no sense buying back ground wool until the picture is done so this book and books like it are a huge help tome plus I love looking at what others have done and that helps me make sure I don't accidently make a rug like someone else

Danella is a company in Denmark that produce articles for rug hooking. Jane Dyrdal used her lifetime as a designer for Danella in Denmark. This book contains exactly all the rug hooked tapestries or wall hangings from Danella ever printed in catalogues. See also www.danella.dk
